- The new industrial policy of Himachal Pradesh promises tax relief, faster clearances and adequate infrastructure facilities and Pharma companies were the ideal choice as they were less polluting and kept the environs green.
- Easy access to Chandigarh & Delhi make Baddi an attractive destination.
- Baddi in Solan district of Himachal Pradesh is emerging as the pharmaceutical industry capital of India.
- Solan district has a major portion of the 6,000 units and Rs 15,000 crore business coming to Himachal Pradesh.
- The state has sufficient and cheap power at Rs 2.50 per unit and water supply to service industry.
- Companies ranging from Dr. Reddy's, Dabur, Morepen, Torrent, Unichem, Panacea Biotech to even small units have established a presence there and some are even going in for expansion.
- More than half of India's pharmaceutical production, mainly formulations, would originate from Himachal Pradesh in few years as 200 odd medium and large-scale units are coming up in and around Baddi.
- Besides, the Himachal Pradesh Government also offers attractive investment schemes, including single window clearance for projects.
- As of date pharma companies save 16% on excise duties applicable for all new units for 10 years from the date of commencement of business. There is a further 100% IT exemption for the first five years followed by 30% for companies for a further period of five years, and capital investment subsidy of 15% on plant and machinery subject to a ceiling of Rs 30 lakh.

#### Major Pharma & Biotech investors at Baddi:
